Summary

I Myself Boina Sai Vinay, a third-year student of Computer science and Engineering, one among many thousands of engineers who are ready to step into the world of challenges and solutions. Am still trying to equip me with what is required to be a part of that race. Little did I know about it when I started this. But lately, things have fallen in place and the race I was part of caught my attention, interested me, and inspired me to be what I'm slowly trying to mold myself into.
